

## The Feast of Nativity 2022

*The love of God was revealed to us! His love is grace and fidelity, mercy and truth.  
It is Him who by setting us free from the darkness of sin and death  
has become the firm and unshakeable foundation of the hope of every human being.  
The liturgical singing reiterates with joyous insistence: Come let us adore him!  
Come from every corner of the world to see what has happened in the stable of Bethlehem.  
For the Redeemer has been born to us and it is today a gift of salvation for us and for all.*

*/John Paul II, excerpt from the homily for the Midnight Mass in Vatican Basilica, 1997/*

May the Feast of Nativity of 2022 and the New 2023 Year  
abound in the grace of God and faithfulness to the Christian values.

I wish everyone this daily crossing of the threshold of hope,  
for the only true and perennial thing is  
what the Newly Born Jesus Christ is bringing to us!

So let us sing from the bottom of our hearts:

*Come, let us adore our Lord!*

May God's Child continually bless you!

Msgr. Prof. Robert Tyralla PhD, Habilitatus  
Rector of UPJPII
